

I am writing to ask that you please do NOT block the transmittal of the K-LOVE 94.3FM frequency with the Low Power FM. This station is a VERY positive and encouraging family radio station. I listen to this station daily and find it to be comforting in the stressful time that we now live in. I have found NO other station that provides the same positive information and music that is provided on K-LOVE 94.3FM. Several church members and friends have begun to listen to this station to help them through depression and the loss of family members. If you block the K-LOVE 94.3FM transmittal you will be severely impacting the community in a detrimental way. I ask that you please DO NOT block the K-LOVE 94.3FM station as it is one of the few stations that people of ALL ages can listen to and enjoy. Thank you for your time.
